

The Wisconsin Chapter of the Congress for the New Urbanism  
invites you to a presentation on:

# Milwaukee's Streetcar System

Speaker: Rocky Marcoux,  
Milwaukee Commissioner for the  
Department of City Development

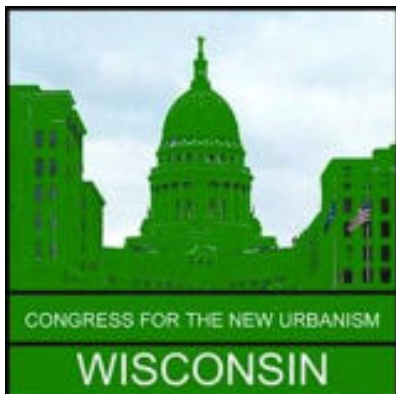

In July 2011 the Milwaukee City Council voted to authorize final engineering of the Milwaukee's streetcar system. With commencement of construction planned for fall 2012 and anticipated completion in fall 2014, the \$64 million system has the potential to spur redevelopment and create new jobs in Downtown Milwaukee. Join Rocky Marcoux to explore the streetcar's initial route, possibilities for expansion of the system, and the City's plans to take full advantage of this exciting new development in the Downtown's transportation infrastructure.
